a.i. Based on the above, the required 3,000 hours of counseling/psychotherapeutic experience shall be accrued in the following manner.

(a). Direct Hours. A minimum of 1,900 hours in direct counseling/psychotherapeutic services involving individuals, couples, families, or groups:

(i). an applicant may utilize supervised direct hours earned in post-master's degree practicum and internship courses in counseling (from a regionally accredited university) toward the required 1900 hours of direct counseling/psychotherapeutic services. In order to be counted, the direct hours earned in practicum and internship courses must have occurred after the applicant has been approved for provisional licensure and is under the supervision of the applicant's board-approved supervisor. An applicant may not count hours spent supervising others (i.e., supervision courses, doctoral students supervising master's level students) as direct hours.

(b). Indirect Hours. A minimum of 1,000 indirect hours in counseling-related activities (i.e., client contact, case notes, staffing, case consultation, or testing/assessment of clients) or education at the graduate level in the field of mental health counseling as defined in R.S. 37:1101-1123:

(i). five hundred indirect hours of supervised experience may be gained for each 30 graduate semester hours earned beyond the required master's degree provided that such hours are clearly related to the field of mental health counseling, are earned from a regionally accredited institution, and are acceptable to the board. Practicum and internship courses may not be included in the 30 graduate semester hours that are used to substitute for 500 hours of supervised experience if they are used to count toward an applicant's direct hours.

(c). Supervision Hours. A minimum of 100 hours of face-to-face supervision by a LPC Supervisor. Up to 25 percent of the supervision hours may be conducted by synchronous videoconferencing:

(i). supervision may not take place via mail, email, or telephone. Telephone, mail, or email contacts with supervisor may be counted under Subclause A.2.a.i.(b) of this Section (i.e., consultation), however, it cannot be counted as face to face supervision as defined in Subclause A.2.a.i.(c) of this Section.

ii. Acceptable modes for supervision of direct clinical contact are the following.

(a). Individual Supervision. The supervisory session is conducted by the LPC Supervisor with one PLPC present.

(b). Group Supervision. The supervisory session is conducted by the supervisor(s) with 2 and no more than 10 PLPCs present.

iii. Supervision hours include individual and/or group supervision as described below.

(a). A minimum of 50 of these 100 hours must be individual supervision.

(b). The remaining hours may be either individual supervision or group supervision.

3. Supervised experience hours for PLPC and PLMFT may be accrued concurrently, after receiving notification of approval from the board certifying that all the requirements for both provisional licensed professional counselor and the provisional licensed marriage and family therapist have been met. If approval was not obtained on the same date for each provisional license, then concurrent accrual of hours cannot begin until the second provisional license has been approved. Retroactive supervision experience hours are not permitted.

4. Current PLPCs are required to remain under active supervision as defined in Chapter 5 until fully licensed.

B. Responsibility of Supervisee under Board-Approved Supervision

1. During the period of supervised counseling/psychotherapy experience, the only proper identification title is provisional licensed professional counselor or PLPC. Provisional licensed professional counselors shall not identify or represent themselves by any other term or title, including "licensed", "fully licensed", "licensed professional counselor", "LPC", or "counselor".

2. Each provisional licensed professional counselor must provide his/her clients with a disclosure statement (as outlined in the appendix of the code of conduct) that includes:

- a. his/her training status; and
- b. the name of his/her supervisor for licensure purposes.

3. Provisional licensed professional counselors must comply with all laws and regulations relating to the practice of mental health counseling (R.S. 37:1101-1123).

4. The provisional licensed professional counselor must maintain contact with his/her board-approved supervisor to ensure that active supervision requirements (as defined in Chapter 5 of this Part) are met.

5. Provide updates to the board and board-approved supervisor regarding changes in status on forms provided by the board within 30 days of said change. Failure to comply may result in a fine, loss of supervised experience hours, and/or disciplinary action. Changes in status include changes in:

- a. relevant personal information, including contact information, physical address, name;
- b. relevant practice setting information, including job title/duties, employment status;
- c. status with the justice system, including notification of arrest, charges, convictions;
- d. status with another licensure/credentialing body, including notification of suspension, revocation, or other disciplinary proceedings/actions;
- e. the use of any narcotics, controlled substances, or any alcoholic beverages in a manner that is dangerous to the

public or in a manner that impairs the supervisee's ability to provide mental health services to the public;

f. any medical condition which may in any way impair or limit the supervisee's ability to provide mental health services to the public with reasonable skill or safety.

6. The supervisee must maintain documentation of all supervised experience hours by employment location and type of hour (indirect, direct, and face to face supervision). It is recommended that a supervisee obtain the signature of the board-approved supervisor indicating review and approval of documentation at regular intervals.

7. The supervisee must renew his/her provisional license in accordance with §611 of this Chapter and maintain a valid provisional license in order to practice mental health counseling.

a. All face to face supervision hours must have been accrued under the clinical supervision of an approved supervisor within their state who meets the qualifications of a supervisor of provisional licensed professional counselors set forth by the Licensed Professional Counselor Board of Examiners.

B. An applicant must also be in good standing in all jurisdictions in which they are licensed or credentialed and must not have been disciplined in any jurisdiction for an act that would have constituted grounds for refusal, suspension, or revocation of a license or credential to practice mental health counseling in the state of Louisiana at the time the act was committed.

All other changes as defined in Chapter 6, Section 605.B.5 should be submitted to the board within 30 days of said change.

B. The chair shall issue a document renewing the provisional license for a term of two years. The provisional license of any licensee who fails to have his/her provisional license renewed every two years during the month of October shall lapse. An individual with a lapsed license may not practice mental health counseling, identify his/herself as a provisional licensed professional counselor or accrue any supervised experience hours. A lapsed provisional license may be renewed within a period of 90 days or postmarked by January 31 upon payment of all fees and arrears and presentation of all required documentation. Of the 20 clock hours of continuing education, one and a half clock hours must be accrued in ethics and one and a half clock hours must be accrued in diagnosis (assessment, diagnosis, and treatment under the *Diagnostic and Statistical Manual of Mental Disorders 5*, as published by the American Psychiatric Association).

1. One continuing education hour (CEH) is equivalent to one clock hour.

2. Accrual of continuing education begins only after the date the license was issued.

3. CEHs accrued beyond the required 20 hours may not be applied toward the next renewal period. A provisional licensee renewal period runs November 1 to October 31, every two years.

4. The licensee is responsible for keeping a personal record of his/her CEHs until official notification of renewal is received. Licensees should not forward documentation of CEHs to the board office as they are accrued.

5. At the time of renewal, 10 percent of the licensees will be audited to ensure that the continuing education requirement is being met. Audited licensees will be notified to submit documentation of accrued CEHs.

B. Approved Continuing Education for Provisional Licensed Professional Counselors

1. Continuing education requirements are meant to encourage personal and professional development throughout the licensee's career. For this reason, a wide range of options are offered to accommodate the diversity of licensees' training, experience, and geographic locations.

2. A licensee may obtain the 20 CEHs through one or more of the options listed below. A maximum of 10 CEHs may be obtained through an online format, with the exception of coursework obtained through a regionally accredited institution of higher education.

a. Continuing Education Approved by Other Organizations. Continuing education that is approved by either the American Counseling Association (ACA), its divisions, regions and state branches, Louisiana Counseling Association (LCA), or the National Board of Certified Counselors (NBCC) will be accepted by the board of examiners. One may contact these associations to find out which organizations, groups or individuals are approved providers. One may receive one clock hour of continuing education for each hour of direct participation in a structured educational format as a learner. Credit cannot be granted for: business/governance meetings; breaks; social activities including meal functions, except for actual time of a content speaker. Credit cannot be given for an approved session to

persons who leave early from that session. Verification can consist of copies of certificates of attendance.

b. Continuing Education Not Preapproved. For those organizations, groups or individuals that do not carry provider status by one of the associations listed in Subparagraph a of this Paragraph, the continuing education hours will be subject to approval by the Licensed Professional Counselors Board of Examiners at the time of renewal. The board will not pre-approve any type of continuing education. The continuing education must be in one of the 14 approved content areas listed in Section 611.C, and be given by a qualified presenter. A qualified presenter is considered to be someone at the master's level or above and trained in the mental health field or related services. One may receive one clock hour of continuing education for each hour of direct participation in a structured educational format as a learner. Credit cannot be granted for business/governance meetings, breaks, social activities, including meal functions, except for actual time of a content speaker. Typically one continuing education unit (CEU) is equivalent to 10 clock hours (CEH).

c. Coursework. CEHs may also be gained by taking coursework (undergraduate or graduate) from a regionally accredited institution in one of the 12 approved content areas for continuing education listed in §611.C. One may take a course for credit or audit a course. In a college or university program, one semester hour is equivalent to 15 clock hours and one quarter hour is equivalent to 10 clock hours. Therefore, 45 CEHs will be given for a three hour university course completed at a regionally accredited university. Verification for coursework can consist of either copies of transcripts for coursework taken for credit or letter of attendance from instructor for courses audited.

d. Home Study (five hours maximum per renewal period). Journals published by ACA, LCA, professional refereed journals, video presentations, and webinars are all approved home study options. Each option must carry a provider number from either NBCC, ACA, LCA, or other board-approved mental health organizations. Each activity will specify the number of CEHs that will be granted upon completion. Verification consists of a certificate issued by NBCC, ACA, LCA, or certificates from other professional mental health organizations that will be reviewed by the board.

e. Presentations (five hours maximum per renewal period). Presenters may get credit for original presentations at a rate of five clock hours per one hour presentation. Presenters must meet the qualifications stated in Subparagraph B.2.b above. The presentation must be to the professional community, not to the lay public or a classroom presentation. The presentation must also be in one of the 14 approved content areas listed in §611.C. Verification of the presentation consists of obtaining a letter from the workshop/convention coordinator stating the topic, date, and number of hours of presentation.

§1307. Informal Disposition of Complaints

A. Some complaints may be settled informally by the board and the person accused of a violation without a formal hearing. The following types of informal dispositions may be utilized.

1. Disposition by Correspondence. For complaints less serious, the Ad Hoc Committee for Disciplinary Affairs of the board may write to the person explaining the nature of the complaint received. The person's subsequent response may satisfactorily explain the situation, and the matter may be dropped. If the situation is not satisfactorily explained, it shall be pursued through an informal conference or formal hearing.

2. Informal Conference

a. The Ad Hoc Committee for Disciplinary Affairs of the board may hold a conference with the person in lieu of, or in addition to, correspondence in cases of less serious complaints. If the situation is satisfactorily explained in conference, a formal hearing is not scheduled.

§2101. Preamble

A. The Louisiana Licensed Professional Board of Examiners is dedicated to the enhancement of the worth, dignity, potential and uniqueness of each individual in the state of Louisiana.

C. *Mental Health Counseling*—assisting an individual or group through psychotherapy by rendering or offering prevention, assessment, diagnosis, and treatment, which includes psychotherapy of mental, emotional, behavioral, and addiction disorders. This professional relationship empowers diverse individuals, families, and groups to accomplish mental health, wellness, education, and career goals.

D. The existence of this code of conduct serves to govern the practice of mental health counseling and the professional functioning of licensed professional counselors and provisional licensed professional counselors in the state of Louisiana.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:1101-1123.

HISTORICAL NOTE: Promulgated by the Department of Health and Hospitals, Licensed Professional Counselors Board of Examiners, LR 15:622 (August 1989), amended LR 24:438 (March 1998), LR 29:142 (February 2003), LR 39:1792 (July 2013), LR 41:725 (April 2015).

§2103. Counseling Relationship

A. Licensees encourage client growth and development in ways that foster the interest and welfare of clients and promote formation of healthy relationships. Licensees actively attempt to understand the diverse cultural backgrounds of the clients they serve. Licensees also explore their own cultural identities and how these affect their values and beliefs about the counseling process. Licensees are encouraged to contribute to society by devoting a portion of

their professional activity to services for which there is little or no financial return (*pro bono publico*).

1. Welfare of Those Served by Licensees

a. **Primary Responsibility.** The primary responsibility of licensees is to respect the dignity and to promote the welfare of clients.

b. **Records.** Licensees maintain records necessary for rendering professional services to their clients and as required by laws (see Chapter 15, §1505.A), regulations, or agency or institution procedures. Licensees include sufficient and timely documentation in their client records to facilitate the delivery and continuity of needed services. Licensees take reasonable steps to ensure that documentation in records accurately reflects client progress and services provided. If errors are made in client records, licensees take steps to properly note the correction of such errors according to agency or institutional policies.

c. **Counseling Plans.** Licensees and their clients work jointly in devising integrated, counseling plans that offer reasonable promise of success and are consistent with abilities and circumstances of clients. Licensees and clients regularly review counseling plans to ensure their continued viability and effectiveness, respecting the freedom of choice of clients.

d. **Support Network Involvement.** Licensees recognize that support networks hold various meanings in the lives of clients and consider enlisting the support, understanding, and involvement of others (e.g., religious/spiritual/community leaders, family members, friends) as positive resources, when appropriate, with client consent.

e. **Employment Needs.** Licensees work with their clients considering employment in jobs that are consistent with the overall abilities, vocational limitations, physical restrictions, general temperament, interest and aptitude patterns, social skills, education, general qualifications, and other relevant characteristics and needs of clients. When appropriate, licensees appropriately trained in career development will assist in the placement of clients in positions that are consistent with the interest, culture, and the welfare of clients, employers, and/or the public.

2. Informed Consent in the Counseling Relationship

a. **Informed Consent.** Clients have the freedom to choose whether to enter into or remain in a counseling relationship and need adequate information about the counseling process, and the counselor. Licensees have an obligation to review, in writing and verbally with clients, the rights and responsibilities of both the licensee and the client. Informed consent is an ongoing part of the counseling process, and licensees appropriately document discussions of informed consent throughout the counseling relationship.

b. Types of Information Needed

i. Licensees explicitly explain to clients the nature of all services provided. They inform clients about issues such as, but not limited to, the following:

(a). the purposes, goals, techniques, procedures, limitations, potential risks, and benefits of services;

(b). the licensee's qualifications, credentials, and relevant experience;

(c). continuation of services upon the incapacitation or death of a counselor; and

(d). other pertinent information.

ii. Licensees take steps to ensure that clients understand the implications of diagnosis, the intended use of tests and reports, fees, and billing arrangements.

iii. Clients have the right:

(a). to confidentiality and to be provided with an explanation of its limitations (including how supervisors, and/or treatment team professionals are involved);

(b). to obtain clear information about their records;

(c). to participate in the ongoing counseling plans; and

(d). to refuse any services or modality change and to be advised of the consequences of such refusal.

c. **Development and Cultural Sensitivity.** Licensees communicate information in ways that are both developmentally and culturally appropriate. Licensees use clear and understandable language when discussing issues related to informed consent. When clients have difficulty understanding the language used by licensees, they provide necessary services (e.g., arranging for a qualified interpreter or translator) to ensure comprehension by clients. In collaboration with clients, licensees consider cultural implications of informed consent procedures and, where possible, licensees adjust their practices accordingly.

d. **Inability to Give Consent.** When counseling minors or persons unable to give voluntary consent, licensees seek the assent of clients to services, and include them in decision making as appropriate. Licensees recognize the need to balance the ethical rights of clients to make choices, their capacity to give consent or assent to receive services, and parental or familial legal rights and responsibilities to protect these clients and make decisions on their behalf.

3. **Clients Served by Others.** When licensees learn that their clients are in a professional relationship with another mental health professional, they request written release of information that the clients sign in order to communicate with other professionals and strive to establish positive and collaborative professional relationships.

4. Avoiding Harm and Imposing Values

a. **Avoiding Harm.** Licensees act to avoid harming their clients, trainees, and research participants and to minimize or to remedy unavoidable or unanticipated harm.

b. **Personal Values.** Licensees are aware of their own values, attitudes, beliefs, and behaviors and avoid

imposing values that are inconsistent with counseling goals. Licensees respect the diversity of clients, trainees, and research participants.

5. Roles and Relationships with Clients

a. **Current Clients.** Sexual or romantic licensee-client interaction or relationships with current clients, their romantic partners, or their family members are prohibited.

b. **Former Clients.** Sexual or romantic client interactions or relationships with former clients, their romantic partners, or their family members are prohibited for a period of five years following the last professional contact. Licensees, before engaging in sexual or romantic interactions or relationships with clients their romantic partners, or client family members after five years following the last professional contact, demonstrate forethought and document (in written form) whether the interactions or relationships can be viewed as exploitive in some way and/or whether there is still potential to harm the former client; in cases of potential exploitation and/or harm, the counselor avoids entering such an interaction or relationship.

c. **Nonprofessional Interactions or Relationships** (other than sexual or romantic interactions or relationships). Licensee-client nonprofessional relationships with clients, former clients, their romantic partners, or their family members should be avoided, except when the interaction is potentially beneficial to the client.

d. **Potentially Beneficial Interactions.** When a licensee-client nonprofessional interaction with a client or former client may be potentially beneficial to the client or former client, the licensee must document in case records, prior to the interaction (when feasible), the rationale for such an interaction, the potential benefit, and anticipated consequences for the client or former client and other individuals significantly involved with the client or former client. Such interactions should be initiated with appropriate client consent. Where unintentional harm occurs to the client or former client, or to an individual significantly involved with the client or former client, due to the non professional interaction, the licensee must show evidence of an attempt to remedy such harm. Examples of potentially beneficial interactions include, but are not limited to:

i. attending a formal ceremony (e.g., a wedding/commitment ceremony or graduation);

ii. purchasing a service or product provided by a client or former client (excepting unrestricted bartering);

iii. hospital visits to an ill family member, mutual membership in a professional association, organization, or community.

e. **Role Changes in the Professional Relationship.** When a licensee changes a role from the original or most recent contracted relationship, he or she obtains informed consent from the client and explains the right of the client to refuse services related to the change. Examples of role changes include:

- i. changing from individual to relationship or family counseling, or vice versa;
- ii. changing from a nonforensic evaluative role to a therapeutic role, or vice versa;
- iii. changing from a licensee to a researcher role (i.e., enlisting clients as research participants), or vice versa; and
- iv. changing from a licensee to a mediator role, or vice versa.

(a). Clients must be fully informed of any anticipated consequences (e.g., financial, legal, personal, or therapeutic) of licensee role changes.

6. Roles and Relationships at Individual, Group, Institutional and Societal Levels

a. Advocacy. When appropriate, licensees advocate at individual, group, institutional, and societal levels to examine potential barriers and obstacles that inhibit access and/or the growth and development of clients.

b. Confidentiality and Advocacy. Licensees obtain client consent prior to engaging in advocacy efforts on behalf of an identifiable client to improve the provision of services and to work toward removal of systemic barriers or obstacles that inhibit client access, growth, and development.

7. Multiple Clients

a. When a licensee agrees to provide counseling services to two or more persons who have a relationship, the licensee clarifies at the outset which person or persons are clients and the nature of the relationships the licensee will have with each involved person. If it becomes apparent that the licensee may be called upon to perform potentially conflicting roles, the licensee will clarify, adjust, or withdraw from roles appropriately.

8. Group Work

a. Screening. Licensees screen prospective group counseling/therapy participants. To the extent possible, licensees select members whose needs and goals are compatible with goals of the group, who will not impede the group process, and whose well-being will not be jeopardized by the group experience.

b. Protecting Clients. In a group setting, licensees take reasonable precautions to protect clients from physical, emotional, or psychological trauma.

9. End-of-Life Care for Terminally Ill Clients

a. Quality of Care. Licensees strive to take measures that enable clients:

- i. to obtain high-quality end-of-life care for their physical, emotional, social, and spiritual needs;
- ii. to exercise the highest degree of self-determination possible;

iii. to be given every opportunity possible to engage in informed decision making regarding their end-of-life care; and

iv. to receive complete and adequate assessment regarding their ability to make competent, rational decisions on their own behalf from a mental health professional who is experienced in end-of-life care practice.

b. Licensee Competence, Choice, and Referral. Recognizing the personal, moral, and competence issues related to end-of-life decisions, licensees may choose to work or not work with terminally ill clients who wish to explore their end-of-life options. Licensees provide appropriate referral information to ensure that clients receive the necessary help.

c. Confidentiality. Licensees who provide services to terminally ill individuals who are considering hastening their own deaths have the option of breaking or not breaking confidentiality, depending on applicable laws and the specific circumstances of the situation and after seeking consultation or supervision from appropriate professional and legal parties.

10. Fees and Bartering

a. Accepting Fees from Agency Clients. Licensees refuse a private fee or other remuneration for rendering services to persons who are entitled to such services through the licensee's employing agency or institution. The policies of a particular agency may make explicit provisions for agency clients to receive counseling services from members of its staff in private practice. In such instances, the clients must be informed of other options open to them should they seek private counseling services.

b. Establishing Fees. In establishing fees for professional counseling services, licensees consider the financial status of clients and locality. In the event that the established fee structure is inappropriate for a client, licensees assist clients in attempting to find comparable services of acceptable cost.

c. Nonpayment of Fees. If licensees intend to use collection agencies or take legal measures to collect fees from clients who do not pay for services as agreed upon, they first inform clients of intended actions and offer clients the opportunity to make payment.

d. Bartering. Licensees may barter only if the relationship is not exploitive or harmful and does not place the licensee in an unfair advantage, if the client requests it, and if such arrangements are an accepted practice among professionals in the community. Licensees consider the cultural implications of bartering and discuss relevant concerns with clients and document such agreements in a clear written contract.

e. Receiving Gifts. Licensees understand the challenges of accepting gifts from clients and recognize that in some cultures, small gifts are a token of respect and showing gratitude. When determining whether or not to accept a gift from clients, licensees take into account the

therapeutic relationship, the monetary value of the gift, a client's motivation for giving the gift, and the licensee's motivation for wanting or declining the gift.

11. Termination and Referral

a. **Abandonment Prohibited.** Licensees do not abandon or neglect clients in counseling and inform clients of professional limitations. Licensees assist in making appropriate arrangements for the continuation of treatment, when necessary, during interruptions such as vacations, illness, and following termination.

b. **Inability to Assist Clients.** If licensees determine an inability to be of professional assistance to clients, they avoid entering or continuing counseling relationships. Licensees are knowledgeable about culturally and clinically appropriate referral resources and suggest these alternatives. If clients decline the suggested referrals, licensees should discontinue the relationship.

c. **Appropriate Termination.** Licensees terminate a counseling relationship when it becomes reasonably apparent that the client no longer needs assistance, is not likely to benefit, or is being harmed by continued counseling. Licensees may terminate counseling when in jeopardy of harm by the client, or another person with whom the client has a relationship, or when clients do not pay fees as agreed upon. Licensees provide pretermination counseling and recommend other service providers when necessary.

d. **Appropriate Transfer of Services.** When licensees transfer or refer clients to other practitioners, they ensure that appropriate clinical and administrative processes are completed and open communication is maintained with both clients and practitioners.

12. Technology Applications

a. **Benefits and Limitations.** Licensees inform clients of the benefits and limitations of using information technology applications in the counseling process and in business/billing procedures. Such technologies include, but are not limited to:

- i. computer hardware and software;
- ii. telephones;
- iii. the world wide web;
- iv. the internet;
- v. online assessment instruments; and
- vi. other communication devices.

b. **Technology-Assisted Services.** When providing technology-assisted distance counseling services, licensees determine that clients are intellectually, emotionally, and physically capable of using the application and that the application is appropriate for the needs of clients.

c. **Inappropriate Services.** When technology-assisted distance counseling services are deemed inappropriate by the licensee or client, licensees consider delivering services face-to-face.

d. **Access.** Licensees provide reasonable access to computer applications when providing technology-assisted distance counseling services.

e. **Laws and Statutes.** Licensees ensure that the use of technology does not violate the laws of any local, state, national, or international entity and observe all relevant statutes.

f. **Assistance.** Licensees seek business, legal, and technical assistance when using technology applications, particularly when the use of such applications crosses state or national boundaries.

g. **Technology and Informed Consent.** As part of the process of establishing informed consent, licensees do the following:

i. address issues related to the difficulty of maintaining the confidentiality of electronically transmitted communications;

ii. inform clients of all colleagues, supervisors, and employees, such as informational technology (IT) administrators, who might have authorized or unauthorized access to electronic transmissions;

iii. urge clients to be aware of all authorized or unauthorized users including family members and fellow employees who have access to any technology clients may use in the counseling process;

a. **Relationship Boundaries With Supervisees.** Counseling supervisors clearly define and maintain ethical professional, personal, and social relationships with their supervisees. Counseling supervisors avoid nonprofessional relationships with current supervisees. If supervisors must assume other professional roles (e.g., clinical and administrative supervisor, instructor) with supervisees, they work to minimize potential conflicts and explain to supervisees the expectations and responsibilities associated with each role. They do not engage in any form of nonprofessional interaction that may compromise the supervisory relationship.

b. **Sexual Relationships.** Sexual or romantic interactions or relationships with current supervisees are prohibited.

c. **Sexual Harassment.** Counseling supervisors do not condone or subject supervisees to sexual harassment.

d. **Close Relatives and Friends.** Counseling supervisors avoid accepting close relatives, romantic partners, or friends as supervisees.

e. **Potentially Beneficial Relationships.** Counseling supervisors are aware of the power differential in their relationships with supervisees. If they believe nonprofessional relationships with a supervisee may be potentially beneficial to the supervisee, they take precautions similar to those taken by licensees when working with clients. Examples of potentially beneficial interactions or relationships include attending a formal ceremony; hospital visits; providing support during a stressful event; or mutual membership in a professional association, organization, or community. Counseling supervisors engage in open discussions with supervisees when they consider entering into relationships with them outside of their roles as clinical and/or administrative supervisors. Before engaging in nonprofessional relationships, supervisors discuss with supervisees and document the rationale for such interactions, potential benefits or drawbacks, and anticipated consequences for the supervisee. Supervisors clarify the specific nature and limitations of the additional role(s) they will have with the supervisee.

4. Supervisor Responsibilities

a. **Informed Consent for Supervision.** Supervisors are responsible for incorporating into their supervision the principles of informed consent and participation. Supervisors inform supervisees of the policies and procedures to which they are to adhere and the mechanisms for due process appeal of individual supervisory actions.

b. **Emergencies and Absences.** Supervisors establish and communicate to supervisees procedures for contacting them or, in their absence, alternative on-call supervisors to assist in handling crises.

c. **Standards for Supervisees.** Supervisors make their supervisees aware of professional and ethical standards and legal responsibilities. Supervisors of provisional licensed professional counselors encourage these supervisees to adhere to professional standards of practice.

d. **Termination of the Supervisory Relationship.** Supervisors or supervisees have the right to terminate the supervisory relationship with adequate notice. Reasons for withdrawal are provided to the other party. When cultural, clinical, or professional issues are crucial to the viability of the supervisory relationship, both parties make efforts to resolve differences. When termination is warranted, supervisors make appropriate referrals to possible alternative supervisors.

5. Counseling Supervision Evaluation, Remediation, and Endorsement

a. **Evaluation.** Supervisors document and provide supervisees with ongoing performance appraisal and evaluation feedback and schedule periodic formal evaluative sessions throughout the supervisory relationship.

b. **Limitations.** Through ongoing evaluation and appraisal, supervisors are aware of the limitations of supervisees that might impede performance. Supervisors assist supervisees in securing remedial assistance when needed. They recommend dismissal from training programs, applied counseling settings, or state or voluntary professional credentialing processes when those supervisees are unable to provide competent professional services. Supervisors seek consultation and document their decisions to dismiss or refer supervisees for assistance. They ensure that supervisees are aware of options available to them to address such decisions.

c. **Counseling for Supervisees.** If supervisees request counseling, supervisors provide them with acceptable referrals. Supervisors do not provide counseling services to their supervisees. Supervisors address interpersonal competencies in terms of the impact of these issues on clients, the supervisory relationship, and professional functioning (see F.3.a).

d. **Endorsement.** Supervisors endorse supervisees for certification, licensure, employment, or completion of an academic or training program only when they believe supervisees are qualified for the endorsement. Regardless of qualifications, supervisors do not endorse supervisees whom they believe to be impaired in any way that would interfere with the performance of the duties associated with the endorsement.

6. Responsibilities of Counselor Educators

a. **Counselor Educators.** Counselor educators who are responsible for developing, implementing, and supervising educational programs are skilled as teachers and practitioners. They are knowledgeable regarding the ethical, legal, and regulatory aspects of the profession, are skilled in applying that knowledge, and make students and supervisees aware of their responsibilities. Counselor educators conduct counselor education and training programs in an ethical manner and serve as role models for professional behavior.

b. **Infusing Multicultural Issues/Diversity.** Counselor educators infuse material related to multiculturalism/diversity into all courses and workshops for the development of professional counselors.

c. **Integration of Study and Practice.** Counselor educators establish education and training programs that integrate academic study and supervised practice.

d. **Teaching Ethics.** Counselor educators make students and supervisees aware of the ethical responsibilities and standards of the profession and the ethical responsibilities of students to the profession. Counselor educators infuse ethical considerations throughout the curriculum.

e. **Peer Relationships.** Counselor educators make every effort to ensure that the rights of peers are not compromised when students or supervisees lead counseling groups or provide clinical supervision. Counselor educators take steps to ensure that students and supervisees understand

they have the same ethical obligations as counselor educators, trainers, and supervisors.

f. **Innovative Theories and Techniques.** When counselor educators teach counseling techniques/procedures that are innovative, without an empirical foundation, or without a well-grounded theoretical foundation, they define the counseling techniques/procedures as “unproven” or “developing” and explain to students the potential risks and ethical considerations of using such techniques/procedures.

g. **Field Placements.** Counselor educators develop clear policies within their training programs regarding field placement and other clinical experiences. Counselor educators provide clearly stated roles and responsibilities for the student or supervisee, the site supervisor, and the program supervisor. They confirm that site supervisors are qualified to provide supervision and inform site supervisors of their professional and ethical responsibilities in this role.

h. **Professional Disclosure.** Before initiating counseling services, counselors-in-training disclose their status as students and explain how this status affects the limits of confidentiality. Counselor educators ensure that the clients at field placements are aware of the services rendered and the qualifications of the students and supervisees rendering those services. Students and supervisees obtain client permission before they use any information concerning the counseling relationship in the training process.

7. Student Welfare

a. **Orientation.** Counselor educators recognize that orientation is a developmental process that continues throughout the educational and clinical training of students. Counseling faculty provide prospective students with information about the counselor education program’s expectations:

- i. the type and level of skill and knowledge acquisition required for successful completion of the training;
- ii. program training goals, objectives, and mission, and subject matter to be covered;
- iii. bases for evaluation;
- iv. training components that encourage self-growth or self-disclosure as part of the training process;
- v. the type of supervision settings and requirements of the sites for required clinical field experiences;
- vi. student and supervisee evaluation and dismissal policies and procedures; and
- vii. up-to-date employment prospects for graduates.

b. **Self-Growth Experiences.** Counselor education programs delineate requirements for self-disclosure or self-growth experiences in their admission and program materials. Counselor educators use professional judgment

when designing training experiences they conduct that require student and supervisee self-growth or self-disclosure. Students and supervisees are made aware of the ramifications their self-disclosure may have when counselors whose primary role as teacher, trainer, or supervisor requires acting on ethical obligations to the profession. Evaluative components of experiential training experiences explicitly delineate predetermined academic standards that are separate and do not depend on the student's level of self-disclosure. Counselor educators may require trainees to seek professional help to address any personal concerns that may be affecting their competency.

8. Student Responsibilities

a. **Standards for Students.** Counselors-in-training have a responsibility to understand and follow the ACA code of ethics and Code of Conduct adopted by the LPC Board and adhere to applicable laws, regulatory policies, and rules and policies governing professional staff behavior at the agency or placement setting. Students have the same obligation to clients as those required of licensees.

b. **Impairment.** Counselors-in-training refrain from offering or providing counseling services when their physical, mental, or emotional problems are likely to harm a client or others. They are alert to the signs of impairment, seek assistance for problems, and notify their program supervisors when they are aware that they are unable to effectively provide services. In addition, they seek appropriate professional services for themselves to remediate the problems that are interfering with their ability to provide services to others.

9. Evaluation and Remediation of Students

a. **Evaluation.** Counselor educators clearly state to students, prior to and throughout the training program, the levels of competency expected, appraisal methods, and timing of evaluations for both didactic and clinical competencies. Counselor educators provide students with ongoing performance appraisal and evaluation feedback throughout the training program.

b. **Limitations.** Counselor educators, throughout ongoing evaluation and appraisal, are aware of and address the inability of some students to achieve counseling competencies that might impede performance. Counselor educators:

- i. assist students in securing remedial assistance when needed;
- ii. seek professional consultation and document their decision to dismiss or refer students for assistance; and
- iii. ensure that students have recourse in a timely manner to address decisions to require them to seek assistance or to dismiss them and provide students with due process according to institutional policies and procedures.

c. **Counseling for Students.** If students request counseling or if counseling services are required as part of a remediation process, counselor educators provide acceptable referrals.

10. Roles and Relationships between Counselor Educators and Students

a. **Sexual or Romantic Relationships.** Sexual or romantic interactions or relationships with current students are prohibited.

b. **Sexual Harassment.** Counselor educators do not condone or subject students to sexual harassment.

c. **Relationships with Former Students.** Counselor educators are aware of the power differential in the relationship between faculty and students. Faculty members foster open discussions with former students when considering engaging in a social, sexual, or other intimate relationship. Faculty members discuss with the former student how their former relationship may affect the change in relationship.

d. **Nonprofessional Relationships.** Counselor educators avoid nonprofessional or ongoing professional relationships with students in which there is a risk of potential harm to the student or that may compromise the training experience or grades assigned. In addition, counselor educators do not accept any form of professional services, fees, commissions, reimbursement, or remuneration from a site for student or supervisee placement.

e. **Counseling Services.** Counselor educators do not serve as counselors to current students unless this is a brief role associated with a training experience.

f. **Potentially Beneficial Relationships.** Counselor educators are aware of the power differential in the relationship between faculty and students. If they believe a nonprofessional relationship with a student may be potentially beneficial to the student, they take precautions similar to those taken by licensees when working with clients. Examples of potentially beneficial interactions or relationships include, but are not limited to, attending a formal ceremony; hospital visits; providing support during a stressful event; or mutual membership in a professional association, organization, or community. Counselor educators engage in open discussions with students when they consider entering into relationships with students outside of their roles as teachers and supervisors. They discuss with students the rationale for such interactions, the potential benefits and drawbacks, and the anticipated consequences for the student. Educators clarify the specific nature and limitations of the additional role(s) they will have with the student prior to engaging in a nonprofessional relationship. Nonprofessional relationships with students should be time-limited and initiated with student consent.

11. Multicultural/Diversity Competence in Counselor Education and Training Programs

a. **Faculty Diversity.** Counselor educators are committed to recruiting and retaining a diverse faculty.

b. **Student Diversity.** Counselor educators actively attempt to recruit and retain a diverse student body. Counselor educators demonstrate commitment to multicultural/diversity competence by recognizing and

valuing diverse cultures and types of abilities students bring to the training experience. Counselor educators provide appropriate accommodations that enhance and support diverse student well-being and academic performance.

c. **Multicultural/Diversity Competence.** Counselor educators actively infuse multicultural/diversity competency in their training and supervision practices. They actively train students to gain awareness, knowledge, and skills in the competencies of multicultural practice. Counselor educators include case examples, role-plays, discussion questions, and other classroom activities that promote and represent various cultural perspectives.

§2115. Research and Publication

A. Licensees who conduct research are encouraged to contribute to the knowledge base of the profession and promote a clearer understanding of the conditions that lead to a healthy and more just society. Licensees support efforts of researchers by participating fully and willingly whenever possible. Licensees minimize bias and respect diversity in designing and implementing research programs.

1. Research Responsibilities

a. **Use of Human Research Participants.** Licensees plan, design, conduct, and report research in a manner that is consistent with pertinent ethical principles, federal and state laws, host institutional regulations, and scientific standards governing research with human research participants.

b. **Deviation from Standard Practice.** Licensees seek consultation and observe stringent safeguards to protect the rights of research participants when a research problem suggests a deviation from standard or acceptable practices.

c. **Independent Researchers.** When independent researchers do not have access to an institutional review board (IRB), they should consult with researchers who are familiar with IRB procedures to provide appropriate safeguards.

d. **Precautions to Avoid Injury.** Licensees who conduct research with human participants are responsible for the welfare of participants throughout the research process and should take reasonable precautions to avoid causing injurious psychological, emotional, physical, or social effects to participants.

e. **Principal Researcher Responsibility.** The ultimate responsibility for ethical research practice lies with the principal researcher. All others involved in the research activities share ethical obligations and responsibility for their own actions.

f. **Minimal Interference.** Licensees take reasonable precautions to avoid causing disruptions in the lives of

research participants that could be caused by their involvement in research.

g. **Multicultural/Diversity Considerations in Research.** When appropriate to research goals, licensees are sensitive to incorporating research procedures that take into account cultural considerations. They seek consultation when appropriate.

2. Rights of Research Participants

a. **Informed Consent in Research.** Individuals have the right to consent to become research participants. In seeking consent, licensees use language that:

- i. accurately explains the purpose and procedures to be followed;
- ii. identifies any procedures that are experimental or relatively untried;
- iii. describes any attendant discomforts and risks;
- iv. describes any benefits or changes in individuals or organizations that might be reasonably expected;
- v. discloses appropriate alternative procedures that would be advantageous for participants;
- vi. offers to answer any inquiries concerning the procedures;
- vii. describes any limitations on confidentiality;
- viii. describes the format and potential target audiences for the dissemination of research findings; and
- ix. instructs participants that they are free to withdraw their consent and to discontinue participation in the project at any time without penalty.

b. **Deception.** Licensees do not conduct research involving deception unless alternative procedures are not feasible and the prospective value of the research justifies the deception. If such deception has the potential to cause physical or emotional harm to research participants, the research is not conducted, regardless of prospective value. When the methodological requirements of a study necessitate concealment or deception, the investigator explains the reasons for this action as soon as possible during the debriefing.

c. **Student/Supervisee Participation.** Researchers who involve students or supervisees in research make clear to them that the decision regarding whether or not to participate in research activities does not affect one's academic standing or supervisory relationship. Students or supervisees who choose not to participate in educational research are provided with an appropriate alternative to fulfill their academic or clinical requirements.

d. **Client Participation.** Licensees conducting research involving clients make clear in the informed consent process that clients are free to choose whether or not to participate in research activities. Licensees take necessary

precautions to protect clients from adverse consequences of declining or withdrawing from participation.

e. **Confidentiality of Information.** Information obtained about research participants during the course of an investigation is confidential. When the possibility exists that others may obtain access to such information, ethical research practice requires that the possibility, together with the plans for protecting confidentiality, be explained to participants as a part of the procedure for obtaining informed consent.

f. **Persons Not Capable of Giving Informed Consent.** When a person is not capable of giving informed consent, licensees provide an appropriate explanation to, obtain agreement for participation from, and obtain the appropriate consent of a legally authorized person.

g. **Commitments to Participants.** Licensees take reasonable measures to honor all commitments to research participants.

h. **Explanations after Data Collection.** After data are collected, licensees provide participants with full clarification of the nature of the study to remove any misconceptions participants might have regarding the research. Where scientific or human values justify delaying or withholding information, licensees take reasonable measures to avoid causing harm.

i. **Informing Sponsors.** Licensees inform sponsors, institutions, and publication channels regarding research procedures and outcomes. Licensees ensure that appropriate bodies and authorities are given pertinent information and acknowledgement.

j. **Disposal of Research Documents and Records.** Within a reasonable period of time following the completion of a research project or study, licensees take steps to destroy records or documents (audio, video, digital, and written) containing confidential data or information that identifies research participants. When records are of an artistic nature, researchers obtain participant consent with regard to handling of such records or documents.

3. **Relationships with Research Participants** (when research involves intensive or extended interactions)

a. **Nonprofessional Relationships.** Nonprofessional relationships with research participants should be avoided.

b. **Relationships with Research Participants.** Sexual or romantic counselor-research participant interactions or relationships with current research participants are prohibited.

c. **Sexual Harassment and Research Participants.** Researchers do not condone or subject research participants to sexual harassment.

d. **Potentially Beneficial Interactions.** When a nonprofessional interaction between the researcher and the research participant may be potentially beneficial, the researcher must document, prior to the interaction (when feasible), the rationale for such an interaction, the potential

benefit, and anticipated consequences for the research participant. Such interactions should be initiated with appropriate consent of the research participant. Where unintentional harm occurs to the research participant due to the nonprofessional interaction, the researcher must show evidence of an attempt to remedy such harm.

4. **Reporting Results**

a. **Accurate Results.** Licensees plan, conduct, and report research accurately. They provide thorough discussions of the limitations of their data and alternative hypotheses. Licensees do not engage in misleading or fraudulent research, distort data, misrepresent data, or deliberately bias their results. They explicitly mention all variables and conditions known to the investigator that may have affected the outcome of a study or the interpretation of data. They describe the extent to which results are applicable for diverse populations.

b. **Obligation to Report Unfavorable Results.** Licensees report the results of any research of professional value. Results that reflect unfavorably on institutions, programs, services, prevailing opinions, or vested interests are not withheld.

c. **Reporting Errors.** If licensees discover significant errors in their published research, they take reasonable steps to correct such errors in a correction erratum, or through other appropriate publication means.

d. **Identity of Participants.** Licensees who supply data, aid in the research of another person, report research results, or make original data available take due care to disguise the identity of respective participants in the absence of specific authorization from the participants to do otherwise. In situations where participants self-identify their involvement in research studies, researchers take active steps to ensure that data are adapted/changed to protect the identity and welfare of all parties and that discussion of results does not cause harm to participants.

e. **Replication Studies.** Licensees are obligated to make available sufficient original research data to qualified professionals who may wish to replicate the study.

5. **Publication**

a. **Recognizing Contributions.** When conducting and reporting research, licensees are familiar with and give recognition to previous work on the topic, observe copyright laws, and give full credit to those to whom credit is due.

b. **Plagiarism.** Licensees do not plagiarize, that is, they do not present another person's work as their own work.

c. **Review/Republication of Data or Ideas.** Licensees fully acknowledge and make editorial reviewers aware of prior publication of ideas or data where such ideas or data are submitted for review or publication.

d. **Contributors.** Licensees give credit through joint authorship, acknowledgment, footnote statements, or other appropriate means to those who have contributed significantly to research or concept development in

accordance with such contributions. The principal contributor is listed first and minor technical or professional contributions are acknowledged in notes or introductory statements.

e. **Agreement of Contributors.** Licensees who conduct joint research with colleagues or students/supervisees establish agreements in advance regarding allocation of tasks, publication credit, and types of acknowledgement that will be received.

f. **Student Research.** For articles that are substantially based on students' course papers, projects, dissertations or theses, and on which students have been the primary contributors, they are listed as principal authors.

g. **Duplicate Submission.** Licensees submit manuscripts for consideration to only one journal at a time. Manuscripts that are published in whole or in substantial part in another journal or published work are not submitted for publication without acknowledgment and permission from the previous publication.

h. **Professional Review.** Licensees who review material submitted for publication, research, or other scholarly purposes respect the confidentiality and proprietary rights of those who submitted it. Licensees use care to make publication decisions based on valid and defensible standards. Licensees review article submissions in a timely manner and based on their scope and competency in research methodologies. Licensees who serve as reviewers at the request of editors or publishers make every effort to only review materials that are within their scope of competency and use care to avoid personal biases.

§2117. Resolving Ethical Issues

A. Licensees behave in a legal, ethical, and moral manner in the conduct of their professional work. They are aware that client protection and trust in the profession depend on a high level of professional conduct. They hold other licensees to the same standards and are willing to take appropriate action to ensure that these standards are upheld. Licensees strive to resolve ethical dilemmas with direct and open communication among all parties involved and seek consultation with colleagues and supervisors when necessary. Licensees incorporate ethical practice into their daily professional work. They engage in ongoing professional development regarding current topics in ethical and legal issues in counseling.

1. Standards and the Law

a. **Knowledge.** Licensees understand the ACA code of conduct and other applicable ethics codes from other professional organizations or from certification and licensure bodies of which they are members. Lack of knowledge or

misunderstanding of an ethical responsibility is not a defense against a charge of unethical conduct.

b. **Conflicts between Ethics and Laws.** If ethical responsibilities conflict with law, regulations, or other governing legal authority, licensees make known their commitment to the code of conduct and standards of practice and take steps to resolve the conflict. If the conflict cannot be resolved by such means, licensees may adhere to the requirements of law, regulations, or other governing legal authority.

2. Suspected Violations

a. **Ethical Behavior Expected.** Licensees expect colleagues to adhere to the code of conduct and standards of practice. When licensees possess knowledge that raises doubts as to whether another licensee is acting in an ethical manner, they take appropriate action.

b. **Informal Resolution.** When licensees have reason to believe that another licensee is violating or has violated an ethical standard, they attempt first to resolve the issue informally with the other licensee, if feasible, provided such action does not violate confidentiality rights that may be involved.

c. **Reporting Ethical Violations.** If an apparent violation has substantially harmed, or is likely to substantially harm a person or organization and is not appropriate for informal resolution or is not resolved properly, licensees take further action appropriate to the situation. Such action might include referral to state or national committees on professional ethics, voluntary national certification bodies, state licensing boards, or to the appropriate institutional authorities. This standard does not apply when an intervention would violate confidentiality rights or when licensees have been retained to review the work of another licensee whose professional conduct is in question.

d. **Consultation.** When uncertain as to whether a particular situation or course of action may be in violation of the code of conduct, licensees consult with other licensees who are knowledgeable about ethics and the code of conduct, with colleagues, or with appropriate authorities

e. **Organizational Conflicts.** If the demands of an organization with which licensees are affiliated pose a conflict with the code of conduct, licensees specify the nature of such conflicts and express to their supervisors or other responsible officials their commitment to the code of conduct. When possible, licensees work toward change within the organization to allow full adherence to the Code of Conduct of Ethics. In doing so, they address any confidentiality issues.

f. **Unwarranted Complaints.** Licensees do not initiate, participate in, or encourage the filing of ethics complaints that are made with reckless disregard or willful ignorance of facts that would disprove the allegation.

g. **Unfair Discrimination against Complainants and Respondents.** Licensees do not deny persons employment,

advancement, admission to academic or other programs, tenure, or promotion based solely upon their having made or their being the subject of an ethics complaint. This does not preclude taking action based upon the outcome of such proceedings or considering other appropriate information.

3. Cooperation with Ethics Committees

a. Licensees assist in the process of enforcing the code of conduct. Licensees cooperate with investigations, proceedings, and requirements of the LPC Board disciplinary committee. Licensees are familiar with the code of conduct as established by the LPC Board and the professional and occupational standards and procedures for processing complaints of ethical violations as it pertains to the enforcement of the code of conduct and standards of practice.

Chapter 23. Licensed Professional Counselor, Licensed Marriage and Family Therapist, Provisional Licensed Professional Counselor, Provisional Licensed Marriage and Family Therapist Professional Assistance Program

§2301. Authority

A. The Louisiana Licensed Professional Counselors Board of Examiners recognizes that impairments in the functioning of persons licensed or provisionally licensed, to practice as licensed professional counselors, provisional licensed professional counselors, licensed marriage and family therapists, or provisional licensed marriage and family therapists can affect the competent delivery of mental health counseling and marriage and family therapy, and impair professional judgment.

B. Therefore, in order to safeguard the public health, safety, and welfare of the people of this state, as mandated by R.S. 37:1102 et seq., the Licensed Professional Counselors Board of Examiners establishes the Professional Assistance Program. Authority for such program is contained at R.S. 37:1110 and 37:1120. This program is sometimes referred to hereafter as the "Professional Assistance Program", or "PAP".

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:1110 and 37:1120.

HISTORICAL NOTE: Promulgated by the Department of Health and Hospitals, Licensed Professional Counselors Board of Examiners, LR 37:344 (January 2011), amended LR 41:737 (April 2015).

§2303. Purpose and Scope; Immunity

A. The goal of the professional assistance program is to provide for public protection through monitoring and a

remedial course of action applicable to licensed and provisional licensed professional counselors and to licensed and provisional licensed marriage and family therapists who are functionally impaired in their ability to safely practice. Impairments include, but are not limited to mental, physical, and addictive disorders or other conditions. The program also supports recovery through preventative measures and allows entrance into the program before harm occurs.

B. A licensed or provisional licensed professional counselor or licensed or provisional licensed marriage and family therapist may enter the program subsequent to voluntary disclosure of impairment via an initial or renewal application for a license or provisional license. When evidence of impairment arises as a possible causative or contributing factor in disciplinary proceedings, the board may offer this program to the subject of those proceedings. If the subject agrees to enter the program, disciplinary proceedings may be suspended pending program completion. If the subject refuses to enter the program, the disciplinary process shall continue. Participation in the program can be voluntary, but may also be required as a prerequisite to continued mental health counseling practice or marriage and family therapy in accordance with the conditions of any consent order, compliance or adjudication hearing. A licensed or provisional licensed professional counselor or licensed or provisional licensed marriage and family therapist who enters the program may be allowed to maintain his/her license or provisional license while in compliance with the requirements of their program, subject to the board's discretion.

C. Professionals who participate in evaluation, monitoring or treatment and who are approved or designated by the board to render these services, as well as professional assistance program committee members and board members, who participate in professional assistance program activities, will be provided immunity. The participating licensed or provisional licensed professional counselor or licensed or provisional licensed marriage and family therapist will be responsible for executing all required releases of information and authorizations required for the board or its designees to obtain information from any monitor, treatment or service provider concerning the licensed or provisional licensed professional counselor or licensed or provisional licensed marriage family therapist's progress and participation in the program, the professional assistance program participant must agree in writing, to grant full immunity to, and hold harmless from any suit or claim, all professional assistance program committee members, board members and those professionals who assist in their evaluation, monitoring, or treatment. This grant of immunity shall extend to all actions by such board members, professional assistance program committee members, or participating professionals acting in good faith in the discharge of their duties.

§2305. Program Implementation

A. The program shall be administered by the board's Professional Assistance Committee, subject to overall supervision and control by the board. The board may utilize its discretionary authority to require or exclude specific components of this program for participants based on determination of the nature and severity of the impairment. 1. The program participant may be required to submit to an assessment relative to the impairment.

a. This assessment will be completed by a licensed mental health professional who is pre-approved by the board.

ii. relapse history;

iii. an assessment of the participant's psychosocial, physical, psychiatric, and other needs, relative to the impairment, and recommendations for future treatment.

c. The participant shall contact the designated mental health professional within 48 hours to schedule an evaluation, which should be scheduled within 72 hours. To the extent practicable, the assessment will then be forwarded to the board by the professional completing the assessment, no later than 72 hours following the completion of the assessment.

2. The participant may be required to submit to ongoing monitoring for a period of up to five years. The beginning date of the monitoring period will be the date upon which a consent order is formally signed by the licensed or provisional licensed professional counselor or licensed or provisional licensed marriage and family therapist and the board, or the date of the board's official decision to require program participation in the event of an adjudication hearing.

3. During the monitoring period the licensed or provisional licensed professional counselor or licensed or provisional licensed marriage and family therapist may be required to submit to random drug and/or alcohol screenings as determined appropriate by the board, or other monitoring requirements which are pertinent and relative to the documented impairment.

a. The interval and timing of the required screening will be directed by a monitor who is pre-approved by the board. This monitor will be considered to have been duly selected by the board as its agent for the purposes of directing the required screens.

b. The results and reports of the results of all screens will be submitted to the board before the final business day of the month following the date of the screen.

4. Receipt by the board of any positive, unexplained substance abuse/drug screen or reports of non-compliance or complications relative to the impairment during the monitoring period may result in suspension, revocation, or other appropriate action pertaining to the licensed or provisional licensed professional counselor, licensed or provisional licensed marriage and family therapist's license or provisional license as determined appropriate by the board.

5. When the impairment is substance-related, the participant may be required to attend Twelve Step meetings on a regular basis as determined appropriate by the designated licensed substance abuse professional, and as approved or required by the board, but no less than four times monthly.

a. A pre-approved monthly log must be submitted to and received by the board at least five days after the final business day of the month following completion of the required meetings. It is the participant's responsibility to ensure that these logs are properly completed and received by the board by the designated date.

b. The log requires documentation of the name of the meeting chairman, and meeting dates and times.

c. Submission of logs will be required for at least one year of program participation, but may be required for any period of time up to and including the entire term of monitoring as determined by the designated licensed substance abuse professional and as approved or required by the board.

6. During the monitoring period for the participant, the participant may be required to participate in professional supervision with a board-approved and designated licensed professional counselor supervisor or licensed marriage and family therapist supervisor at a frequency determined by the board for a period of time up to and including the entire five year period of monitoring.

7. The board, in addition to other conditions, may require that the participant obtain regularly scheduled therapy, at a prescribed interval.

a. The type and interval of therapy may be recommended by the designated pre-approved licensed professional responsible for program monitoring, as approved by the board.

b. The type and interval of therapy may be also required by the board independently.

c. The participant may choose the licensed substance abuse professional or other qualified professional to provide this therapy, subject to board approval.

8. Other requirements for participation in the program may include, but are not limited to, limitations in the scope of the participant's mental health counseling or marriage and family therapy practice, suspension of practice, or voluntary withdrawal from practice for a specific time.

9. In the event that the participant relocates to another jurisdiction, the participant will within five days of relocating be required to either enroll in the other jurisdiction's professional assistance program and have the reports required under the agreement sent to the Louisiana Professional Counselor's Board of Examiners or if the other jurisdiction has no impairment professional program, the participant will notify the licensing board of that jurisdiction that the participant is impaired and enrolled in the professional assistance program. Should the participant fail to adhere to this requirement, in addition to being deemed in violation of the program requirements and corresponding consent order or adjudication, the participant's license or provisional license will be suspended or revoked.

10. The participant shall notify the board office by telephone within 48 hours and in writing within five working days of any changes of the participant's home or work address, telephone number, employment status, employer and/or change in scope or nature practice. The participant may satisfy the notice requirement by telephone, leaving a voice message on the board's office voicemail at times when the office is closed. The consultant has no functional authority or legal or professional responsibility for the consultee, the services performed by the consultee, or the welfare of the consultee's client. *Consultation* is not supervision. Experience under contract for *consultation* will not be credited toward fulfillment of supervision requirements of provisional licensed marriage and family therapists or supervisor candidates.

During the course of the supervisory process, The LMFT board-approved supervisor maintains an appropriate level of responsibility for the supervisee's delivery of services and provides an accurate and true representation to the public of those services and the supervisor/supervisee relationship. The LMFT registered supervisor candidate at the successful completion of the supervision-of-supervision process must make formal application to the board for qualification as an LMFT board-approved supervisor. A LMFT registered supervisor candidate may use the initials LMFT-SC after his or her name. Any portion of the Rule that applies to board-approved supervisors will also be considered to apply to supervisor candidates except where specifically noted. The LMFT registered supervisor candidate (LMFT-SC) will henceforth be called the supervisor except in instances that pertain only to candidates, where the terms supervisor candidate or candidate will be used.

licensed marriage and family therapist for licensure as an LMFT in Louisiana in accordance with the plan of supervision approved by the advisory committee. Under no circumstances shall any contact that is not face-to-face (such as interaction by conventional correspondence, telephone, e-mail, instant message, etc.) between an LMFT board-approved supervisor or supervisor candidate and a provisional licensed marriage and family therapist be considered qualified supervision unless such contact is pre-approved by the advisory committee as part of the supervisee’s plan of supervision. Up to 25 of the 100 face-to-face supervision hours may be conducted via synchronous videoconferencing.

a. Administrative supervision conducted to evaluate job performance or for case management rather than the clinical supervision of therapy provided to clients shall not be considered qualified supervision.

b. Any didactic process wherein techniques or procedures are taught in a group setting, classroom, workshop, or seminar shall not normally be considered qualified supervision. If, however, the board-approved supervisor deems such experience as necessary to the supervisee’s successful completion of his or her postgraduate clinical supervised experience, such experience may be included in the supervisee’s plan of supervision. Supervision—the professional relationship between a supervisor and supervisee that nurtures the professional self of the supervisee, promotes the development of the supervisee’s therapeutic knowledge and skill, contributes to the supervisee’s development of sound ethical judgment, and reasonably ensures that the therapeutic services delivered by the supervisee meet a minimum standard of clinical and ethical quality. The supervisor provides guidance and instruction that is of such quality, frequency, and regularity that the clinical and professional development of the supervisee is promoted and the supervisee’s service delivery is adequately monitored. Supervision involves the clinical review of the supervisee’s work with clients that may utilize therapist self-report and review of clinical documentation, review of audiotapes or videotapes, or direct observation of live therapy sessions.

The Plan of Supervision for PLMFTs—a written agreement between the board-approved supervisor and the PLMFT that establishes the supervisory framework for the postgraduate clinical experience of the supervisee and describes the expectations and responsibilities of the board-approved supervisor and the PLMFT as a supervisee. It is

the responsibility of the PLMFT to submit the plan of supervision to the advisory committee in a manner consistent with advisory committee policy.

The Plan of Supervision-of-Supervision for Supervisor Candidates—a written agreement between the board-approved supervisor and the supervisor candidate that establishes the framework for the supervision-of-supervision of a licensed marriage and family therapist who is training to become an LMFT board-approved supervisor and that describes the expectations and responsibilities of the supervisor and the supervisee. It is the responsibility of the supervisor candidate to submit a plan of supervision-of-supervision to the advisory committee in a manner consistent with advisory committee policy. Henceforth, the plan of supervision-of-supervision for supervisor candidates shall be called the plan of supervision-of-supervision.

2. The postgraduate clinical experience must include at least 200 hours of qualified supervision, of which at least 100 hours must be individual supervision. The remaining 100 hours may be group supervision.

a. Supervision experience hours for PLPC and PLMFT may be accrued concurrently, after receiving notification of approval from the board, certifying that all the requirements for both provision licensed professional counselor and the provisional licensed marriage and family therapist have been met. If approval was not obtained on the same date for each provisional license, then concurrent accrual of hours cannot begin until the second provisional license has been approved. Retroactive supervision experience hours are not permitted.

5. The supervisee will be granted a change of approved supervisors or an additional approved supervisor only upon payment of the fee as defined in Chapter 9 and upon the approval of appropriate documentation as determined by the advisory committee.

2. The PLMFT is responsible to meet with the board-approved supervisor(s) for qualified supervision in the manner prescribed in the plan of supervision. The PLMFT must receive active supervision as defined in §3105.

3. The PLMFT is responsible to collaborate with his or her approved supervisor(s) in order to develop and submit to the advisory committee a plan of supervision as defined in Section 3315.B.

4. It is the responsibility of the supervisee to immediately report to the approved supervisor(s), the supervisee's employer or contractor, and the board any changes in the supervisee's status (loss of employment, change of job status, serious illness, legal difficulty, etc.) that significantly affect the supervisee's continued qualification as a PLMFT, due qualification as a LMFT, ability to meet the terms of the plan of supervision, or ability to provide the standard of care to clients as defined in this Rule.

a. The supervisee shall report to the approved supervisor(s) and the board within thirty days any change in status that would affect the ability of the supervisor or the board to contact the supervisee, such as changes in postal address, telephone number, or e-mail address.

b. As the board-approved supervisor has knowledge, he or she shall ensure that the supervisee reports such changes in status to the board in accordance with advisory committee policy.

c. The supervisee is responsible to collaborate with his supervisor(s) over the course of his or her postgraduate clinical experience to develop, maintain, and fulfill a plan of supervision that meets the developmental needs of the supervisee, provides for an appropriate level of professional care for the supervisee's clients, allows for the adequate monitoring of the supervisee's practice by the board-approved supervisor(s) or supervisor candidate, and allows for the supervisee's timely qualification as a LMFT.

d. It is the responsibility of the supervisee to submit amendments to the plan of supervision to the advisory committee within 30 days for approval in accordance with advisory committee policy.

5. The PLMFT is responsible to meet with the approved supervisor(s) with a regularity, frequency, and manner prescribed by the board-approved plan of supervision.

b. In the event that an approved supervisor becomes unwilling or unable for any reason to fulfill the duties as a qualified supervisor, the advisory committee shall assist this supervisor's supervisees according to advisory committee policy in acquiring interim supervision until a suitable board-approved supervisor can be located in order to preserve continuity of care for the supervisee's clients.

c. Should an interim supervisor not be located in a timely manner as determined by the advisory committee, the supervisee must suspend services to clients until such time as a new supervisor can be located. B. Specific Responsibilities of the PLMFT to the Approved Supervisor. It is the responsibility of the PLMFT to:

3. earnestly endeavor to resolve with the supervisee's supervisor(s) any personal or professional conflict that may hinder the supervisee in collaborating with supervisor(s) in the provision of an appropriate standard of care to clients, successfully completing the terms of the plan of supervision, or successfully qualifying for licensure as a LMFT;

In the event that such conflict cannot be resolved in a timely manner, the supervisee or the supervisor(s) may request assistance in writing from the advisory committee in accordance with advisory committee policy.

C. Revocation, Suspension, or Limitation of the Terms of the Provisional Licensure of the PLMFT.

1. The board upon recommendation of the advisory committee may withhold, deny, revoke, suspend or otherwise limit the terms of the provisional licensure of a PLMFT on a finding that the PLMFT has violated any of the rules, regulations, or ethical standards for licensed or provisionally licensed marriage and family therapists as pertains to the supervision of PLMFTs contained in this Rule or prior final decisions and/or consent orders involving the PLMFT.

A. General Responsibilities

1. It is the primary function of supervisors in their relationships with their supervisees to protect the welfare of

the public in every circumstance. Supervisors work with the board and their supervisee to protect the right of every client to ethical, professional treatment. 2. A supervisor may not have more than a combined total of 10 supervisees, including PLMFTs and supervisees in other disciplines and/or registered supervisor candidates.

3. The supervisor is responsible for assisting the supervisee in developing and maintaining the plan of supervision and monitoring the timely submission of appropriate documentation to the board on behalf of the supervisee.

4. The supervisor shall provide qualified supervision to the supervisee until the supervisor has received official notice from the board that the supervisee is licensed as a LMFT, been officially assigned by the board to another supervisor, or has otherwise lost or forfeited qualification as a PLMFT. 5. It is the responsibility of the supervisor to immediately report to the board and his/her designated supervisees in accordance with advisory committee policy any changes in his status (loss of employment, serious illness, legal problems, etc.) that may significantly affect his/her certification as an approved supervisor or supervisor candidate or his/her ability as an approved supervisor to fulfill his/her duties as described in this Rule or in the plan of supervision/plan of supervision-of-supervision. The

supervisor shall within thirty days also report to the board any change in status that may affect the ability of the board to contact him or her (change of address, telephone number, e-mail address, etc.).

6. As he/she has knowledge, the supervisor shall ensure that the supervisee reports such changes in status to the board in accordance with advisory committee policy that would affect the ability of the supervisor or the board to contact the supervisee, such as changes in postal address, telephone number, or e-mail address.

7. It is the responsibility of the supervisor to supervise supervisees within his or her scope of practice. The supervisor shall not present himself as providing supervision in any particular therapeutic approach, technique, or theoretical orientation in which the supervisor has not been thoroughly trained and had adequate experience to provide competent supervision as determined by the advisory committee.

8. It is the responsibility of the supervisor to observe the practice of the supervisee through clinical case review, real-time observation of the supervisee's sessions, or by reviewing session video- or audio-tapes such that the supervisor is sufficiently able to monitor the practice of the supervisee and guide the supervisee in maintaining the minimum standard of care for his clients defined in this Rule and the plan of supervision.

a. The supervisor shall ensure that the regularity, duration, and quality of supervision sessions are adequate to provide continuity, support, and nurturance to the supervisee and to monitor the professional quality of the supervisee's service provision to clients.

b. The supervisor shall provide timely, accurate feedback to the supervisee, the supervisee's other supervisors, and the advisory committee in accordance with advisory committee policy in regard to the professional development of the supervisee, his or her progress in completing the plan of supervision, or any other information that relates to the supervisee's ability to provide adequate care to clients.

c. When a supervisor receives information that suggests that the behavior of a supervisee may present a clear and significant threat to the welfare of a client, it is the responsibility of the supervisor to immediately provide corrective feedback to the supervisee.

d. In the event of Subparagraph A.8.c of this Section and if the supervisor determines that the supervisee has failed to respond appropriately by acting to protect the welfare of the client, it is the responsibility of the supervisor to immediately report the behavior of the supervisee to the board according to advisory committee policy and immediately inform the client of the potential risk. The supervisor should use his clinical judgment in such matters, balancing his or her roles as mentor to the supervisee and protector of the public with protection of the public preeminent.

9. The supervisor shall keep true, accurate, and complete records in accordance with advisory committee policy of his or her interactions with supervisees and their clients and respond within 30 days to any request by the board to audit records pertaining to the supervision of supervisees.

11. As is applicable, it is the responsibility of the supervisor to recommend for certification as board-approved supervisors those and only those supervisor candidates that have satisfactorily fulfilled the terms of the board-approved plan of supervision-of-supervision and have otherwise demonstrated a satisfactory level of competence in delivering professional services to their supervisees.

B. Specific Responsibilities of the Supervisor to the PLMFT. It is the responsibility of the supervisor to:

1. review with the supervisee a copy of the supervisor's board-approved statement of practice, provide a copy of this statement to the supervisee, and file a copy of this statement with the board in accordance with advisory committee policy;

2. provide guidance and training to the supervisee in the ethical and competent delivery of psychotherapeutic services in a manner that leads the supervisee toward qualification as a LMFT. This includes but is not limited to guidance and training in diagnosis and treatment of emotional, mental, behavioral, and addictive disorders, problem assessment, treatment plan development, application of therapeutic knowledge, joining skills, technique selection, intervention skills/outcome assessment, application of ethical and legal principles, case documentation and reporting, case management, and consultation protocol;

4. oversee the formulation of the supervisee's plan of supervision in accordance with advisory committee policy that provides reasonable access for the supervisee to the board-approved supervisor and the supervision process, meets the developmental needs of the supervisee, and affords the supervisor adequate contact with the supervisee

to appropriately monitor the quality of the supervisee's service delivery to clients;

a. the supervisee or the supervisor may request to amend the plan of supervision during the course of post-graduate clinical experience. Changes to the plan of supervision should be the result of collaboration between the supervisee and the board-approved supervisor;

b. it is the responsibility of the supervisor to oversee the supervisee's submission of amendments to the plan of supervision to the advisory committee within thirty days for approval in accordance with advisory committee policy;

5. assist the supervisee in finding a suitable resolution in the event that the policies of the supervisee's employer or contractor impede the supervisee in providing a level of care to clients that meets the standards provided by board policy or this Rule. The supervisor should make reasonable effort to assist the supervisee in resolving such conflicts in a manner that if possible allows the supervisee to maintain his or her employment, comply fully with responsibilities as described in this statute, and complete the plan of supervision successfully;

6. assist the supervisee in identifying personal and professional strengths and weaknesses that affect the supervisee's development as a family therapist and provide regular, meaningful feedback in accordance with advisory committee policy that will help the supervisee reinforce his strengths while improving his weaknesses;

If the situation is not satisfactorily explained, it shall be pursued through an informal conference or formal hearing.

2. Informal Conference

- a. The disciplinary committee may hold a conference with the person in lieu of, or in addition to, correspondence in cases of less serious complaints. If the situation is satisfactorily explained in conference, a formal hearing is not scheduled.

ii. Determine whether the facts in the case support the charges brought against the person.

iii. Determine whether charges brought are a violation of the Louisiana Mental Health Counselor Licensing Act or rules and regulations and ethical standards for marriage and family therapy promulgated by the board for the advisory committee.

b. Deliberation

i. The board will deliberate in closed session.

ii. The advisory committee shall make its recommendation as to each charge presented.

iii. The board will vote on each charge as to whether the charge has been supported by the evidence. (The standard will be *preponderance of the evidence*).

iv. After considering and voting on each charge, the board will vote on a resolution to dismiss the charges, withhold, deny, revoke or suspend any license or provisional license issued or applied for or otherwise discipline a licensed marriage and family therapist, provisional licensed marriage and family therapist, or applicant for licensure or provisional licensure.

c. Sanctions against the person who is party to the proceedings are based upon findings of fact and conclusions of law determined as a result of the hearing. The party is notified by certified mail of the final decision of the board.

14. Every order of the board shall take effect immediately on its being rendered unless the board in such order fixes a probationary period for an applicant or licensee. Such order shall continue in effect until expiration of any specified time period or termination by a court of competent jurisdiction. The board shall notify all licensees of any action taken against a licensee and may make public its orders and judgment in such manner and form as it and the advisory committee deem proper if such orders and judgments are not consent orders or compromise judgments.

15.a. The board may reconsider a matter that it has decided. This may involve rehearing the case, or it may involve reconsidering the case on the basis of the record. Such reconsideration may occur when a party who is dissatisfied with a decision of the board files a motion requesting that the board reconsider the decision.

b. The board shall reconsider a matter when ordered to do so by a higher administrative authority or when the case is remanded for reconsideration or rehearing by a court to which the board's decision has been appealed.

c. A motion by a party for reconsideration or rehearing must be in proper form and filed within 10 days after notification of the board's decision. The motion shall set forth the grounds for the rehearing, which include one or more of the following.

i. The board's decision is clearly contrary to the law and evidence.

ii. There is newly discovered evidence by the party since the hearing which is important to the issues and which the party could not have discovered with due diligence before or during the hearing.

iii. There is a showing that issues not previously considered ought to be examined in order to dispose of the case properly.

The board shall record the circumstances of the person's failure to cooperate and shall inform the person that the lack of cooperation may result in action by the board that could eventually lead to the withholding, denial, revocation or suspension of his/her license, provisional license, or application for licensure or provisional licensure, or otherwise issue appropriate disciplinary sanction.

Chapter 41. Informed Consent

§4101. General Provisions

A. Licensees obtain appropriate informed consent to therapy or related procedures before the formal therapeutic process begins. Information provided to clients by licensees about the treatment process shall include, but is not limited to, the licensee's statement of practice as outlined in the appendix (§4720). The licensee should be sure that the client understands all information provided before asking for consent to treatment. The content of informed consent may vary depending on the client and treatment plan; however, informed consent generally necessitates that the client:

1. has the capacity to consent;
2. has been adequately informed of the ethical and practical components of treatment processes and procedures, including but not limited to, the use of audio or video taping, or the use of observers, supervisors, or therapy teams during therapy;
3. has been adequately informed of potential therapy outcomes, including the risks and benefits of treatment, not only for recognized approaches, but also for approaches for which generally recognized standards do not yet exist;
4. has freely and without undue influence expressed consent; and
5. has provided consent that is appropriately documented.

B. When persons, due to age or mental status, are legally incapable of giving informed consent, licensees obtain informed permission from a legally authorized person, if such substitute consent is legally permissible.

Chapter 43. Privileged Communications

§4301. Privileged Communication with Clients

A. Licensees disclose to clients and other interested parties, as early as feasible in their professional contacts, the nature of confidentiality in the therapeutic process and

possible limitations of the clients' right to confidentiality. Licensees review with clients the circumstances where confidential information may be requested and where disclosure of confidential information may be legally required. Circumstances may necessitate repeated disclosures. Licensees also shall be aware of specific ethical requirements concerning marriage and family therapy as specified in the Code of Ethics (Chapter 47) and in §4301.C.

B. Licensees do not disclose client confidences except by written authorization or waiver, court order, or where mandated or specifically permitted by law, or reasonably necessary to protect the client or other parties from a clear and imminent threat of serious physical harm. Verbal authorization may be sufficient in emergency situations or where otherwise permitted by law.

C. Licensees shall be cognizant of and adhere to any confidentiality requirement that may differ from requirements in other licenses they hold. Licensees have unique confidentiality concerns because the client in a therapeutic relationship may be more than one person. Licensees respect and guard the confidences of each individual client within the system of which they are working as well as the confidences of the system.

1. When providing couple, family, or group treatment, a licensee shall not disclose information outside the treatment context without a written authorization from each individual competent to execute a waiver.

2. In the context of couple, family, or group treatment, the licensee may not reveal any individual's confidences to others in the client unit without the prior written permission of that individual.

Chapter 45. Exemptions

§4501. Exemptions

A. No person shall be required to obtain a license as a licensed marriage and family therapist or a provisional license as a provisional licensed marriage and family therapist. As stated in R.S. 37:1122(A), no person shall use the title "licensed marriage and family therapist" or "provisional licensed marriage and family therapist".

B. Nothing in this Chapter shall prevent qualified members of other professional groups as defined by the board upon recommendation of the advisory committee including but not limited to clinical social workers, psychiatric nurses, psychologists, physicians, licensed professional counselors, or members of the clergy, including Christian science practitioners, from doing or advertising that they perform work of a marriage and family therapy nature consistent with the accepted standards of their respective professions. However, no such person shall use the title "licensed marriage and family therapist" or

“provisional licensed marriage and family therapist”. (R.S. 37:1121).

Chapter 47. Code of Ethics

§4701. General

A. The Marriage and Family Therapy Advisory Committee strives to honor the public trust in licensed marriage and family therapists and provisional licensed marriage and family therapists by setting the standards for ethical practice as described in this code of ethics.

B. Licensees have an obligation to be familiar with this code of ethics and its application to their professional services. They also must be familiar with any applicable ethical codes that govern other licensure that they hold or are responsible for through certification or membership in professional organizations. Lack of awareness or misunderstanding of an ethical standard is not a defense to a charge of unethical conduct.

C. These ethical standards govern the practice of marriage and family therapy and professional functioning of the advisory committee and shall be enforced by the board through the advisory committee.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:1101-1123.

HISTORICAL NOTE: Promulgated by the Department of Health and Hospitals, Licensed Professional Counselors Board of Examiners, LR 29:167 (February 2003), amended LR 41:755 (April 2015).

§4703. Resolving Ethical Issues

A. The absence of an explicit reference to a specific behavior or situation in the code does not mean that the behavior is ethical or unethical. The standards are not exhaustive. Licensees shall consult with other licensees who are knowledgeable about ethics, with colleagues, with LMFT-approved supervisors, or with appropriate authorities when:

1. they are uncertain if the ethics of a particular situation or course of action is in violation of this code; or
2. provisions in the ethical codes that regulate licensure that they may hold in other professions differs from provisions in this code; or
3. provisions in the ethical codes that regulate their membership or certification in a professional organization differs from provisions in this code.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:1101-1123.

§4705. Responsibility to Clients

A. Licensees advance the welfare of families and individuals. They respect the rights of those persons seeking their assistance and make reasonable efforts to ensure that their services are used appropriately.

B. Licensees provide professional assistance to persons without discrimination on the basis of race, age, ethnicity, socioeconomic status, disability, gender, health status, religion, national origin, or sexual orientation.

C. Licensees obtain appropriate informed consent to therapy or related procedures early in the therapeutic relationship, usually before the therapeutic relationship begins, and use language that is reasonably understandable to clients. The licensee will provide all clients with a statement of practice subject to review and approval by the advisory committee (See §4720, Appendix). The content of informed consent may vary depending upon the licensee's areas of expertise, the client(s) and treatment plan.

1. Informed consent generally necessitates that the client:

- a. has the capacity to consent;
- b. has been adequately informed of significant information concerning treatment processes and procedures;
 - i. has been adequately informed of potential risks and benefits of treatments for which generally recognized standards do not yet exist;
- c. has freely and without undue influence signed a statement of practice.

2. When persons, due to age or mental status, are legally incapable of giving informed consent, licensees obtain informed permission from a legally authorized person, if such substitute consent is legally permissible.

D. Licensees are aware of their influential positions with respect to clients, and they avoid exploiting the trust and dependency of such persons. Licensees, therefore, make every effort to avoid conditions and multiple relationships with clients that could impair professional judgment or increase the risk of exploitation. Such relationships include, but are not limited to, business or close personal relationships with a client or the client's immediate family. When the risk of impairment or exploitation exists due to conditions or multiple roles, therapists take appropriate precautions.

E. Sexual intimacy with clients is prohibited.

F. Sexual intimacy with former clients is likely to be harmful and is therefore prohibited for two years following the termination of therapy or last professional contact. In an effort to avoid exploiting the trust and dependency of clients, licensees should not engage in sexual intimacy with former clients after the two years following termination or last professional contact. Should licensees engage in sexual intimacy with former clients following two years after termination or last professional contact, the burden shifts to the licensee to demonstrate that there has been no

exploitation or injury to the former client or to the client's immediate family.

G. Licensees comply with applicable laws regarding the reporting of alleged unethical conduct.

H. Licensees do not use their professional relationships with clients to further their own interests.

I. Licensees respect the rights of clients to make decisions and help them to understand the consequences of these decisions. Licensees clearly advise the clients that they have the responsibility to make decisions regarding relationships such as cohabitation, marriage, divorce, separation, reconciliation, custody, and visitation.

J. Licensees continue therapeutic relationships only so long as it is reasonably clear that clients are benefiting from the relationship.

K. Licensees assist persons in obtaining other therapeutic services if the licensee is unable or unwilling, for appropriate reasons, to provide professional help.

L. Licensees do not abandon or neglect clients in treatment without making reasonable arrangements for the continuation of such treatment.

M. Licensees obtain written informed consent from clients before videotaping, audio recording, or permitting third-party observation.

N. Licensees, upon agreeing to provide services to a person or entity at the request of a third party, clarify, to the extent feasible and at the outset of the service, the nature of the relationship with each party and the limits of confidentiality.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:1101-1123.

§4707. Confidentiality

A. Licensees have unique confidentiality concerns because the client in a therapeutic relationship may be more than one person. Licensees respect and guard the confidences of each individual client.

B. Licensees disclose to clients and other interested parties, as early as feasible in their professional contacts, the nature of confidentiality and possible limitations of the clients' right to confidentiality. Licensees review with clients the circumstances where confidential information may be requested and where disclosure of confidential information may be legally required. Circumstances may necessitate repeated disclosures.

C. Licensees do not disclose client confidences except by written authorization or waiver, or where mandated or permitted by law. Verbal authorization will not be sufficient except in emergency situations, unless prohibited by law, specifically in instances of danger to self or others, suspected child abuse/neglect, elderly abuse/neglect, or

disabled adult abuse/neglect. When providing couple, family or group treatment, the licensee does not disclose information outside the treatment context without a written authorization from each individual competent to execute a waiver. In the context of couple, family or group treatment, the licensee may not reveal any individual's confidences to others in the client unit without the prior written permission of that individual.

D. Licensees use client and/or clinical materials in teaching, writing, consulting, research, and public presentations only if a written waiver has been obtained in accordance with this Section, or when appropriate steps have been taken to protect client identity and confidentiality.

E. Licensees store, safeguard, and dispose of client records in ways that maintain confidentiality and in accord with applicable laws and professional standards.

F. Subsequent to the licensee moving from the area, closing the practice, or upon the death of the licensee, a licensee arranges for the storage, transfer, or disposal of client records in ways that maintain confidentiality and safeguard the welfare of clients.

G. Licensees, when consulting with colleagues or referral sources, do not share confidential information that could reasonably lead to the identification of a client, research participant, supervisee, or other person with whom they have a confidential relationship unless they have obtained the prior written consent obtained in accordance with this Section of the client, research participant, supervisee, or other person with whom they have a confidential relationship. Information may be shared only to the extent necessary to achieve the purposes of the consultation.

§4709. Professional Competence and Integrity

A. Licensees maintain high standards of professional competence and integrity.

B. Licensees pursue knowledge of new developments and maintain competence in marriage and family therapy through education, training, or supervised experience.

C. Licensees maintain adequate knowledge of and adhere to applicable laws, ethics, and professional standards.

D. Licensees seek appropriate professional assistance for their personal problems or conflicts that may impair work performance or clinical judgment.

E. Licensees do not provide services that create a conflict of interest that may impair work performance or clinical judgment.

F. Licensees, as presenters, teachers, supervisors, consultants and researchers, are dedicated to high standards

of scholarship, present accurate information, and disclose potential conflicts of interest.

G. Licensees maintain accurate and adequate clinical and financial records.

H. While developing new skills in specialty areas, licensees take steps to ensure the competence of their work and to protect clients from possible harm. Licensees practice in specialty areas new to them only after appropriate education, training, or supervised experience.

I. Licensees do not engage in sexual or other forms of harassment of clients, students, trainees, supervisees, employees, colleagues, or research subjects.

J. Licensees do not engage in the exploitation of clients, students, trainees, supervisees, employees, colleagues, or research subjects.

K. Licensees do not give to or receive from clients:

1. gifts of substantial value; or
2. gifts that impair the integrity or efficacy of the therapeutic relationship.

L. Licensees do not diagnose, treat, or advise on problems outside the recognized boundaries of their competencies.

M. Licensees make efforts to prevent the distortion or misuse of their clinical and research findings.

N. Licensees, because of their ability to influence and alter the lives of others, exercise special care when making public their professional recommendations and opinions through testimony or other public statements.

O. To avoid a conflict of interests, licensees who treat minors or adults involved in custody or visitation actions may not also perform forensic evaluations for custody, residence, or visitation of the minor. The licensee who treats the minor may provide the court or mental health professional performing the evaluation with information about the minor from the licensee's perspective as a treating licensed or provisionally licensed marriage and family therapist, so long as the licensee does not violate confidentiality.

P. Licensees are in violation of this code and subject to revocation or suspension of licensure or provisional licensure or other appropriate action by the board through the advisory committee if they:

1. are convicted of any felony;
2. are convicted of a misdemeanor related to their qualifications or functions;
3. engage in conduct which could lead to conviction of a felony, or a misdemeanor related to their qualifications or functions;
4. are expelled from or disciplined by professional organizations;

5. have their licenses or certificates suspended or revoked or are otherwise disciplined by other regulatory bodies;

6. continue to practice marriage and family therapy while no longer competent to do so because they are impaired by physical or mental causes or the abuse of alcohol or other substances; or

7. fail to cooperate with the board through the advisory committee at any point from the inception of an ethical complaint through the completion of all proceedings regarding that complaint.

§4711. Responsibility to Students and Supervisees

A. Licensees do not exploit the trust and dependency of students and supervisees.

B. Licensees are aware of their influential positions with respect to students and supervisees, and they avoid exploiting the trust and dependency of such persons. Licensees, therefore, make every effort to avoid conditions and multiple relationships that could impair professional objectivity or increase the risk of exploitation. When the risk of impairment or exploitation exists due to conditions or multiple roles, licensees take appropriate precautions.

C. Licensees do not provide therapy to current students or supervisees.

D. Licensees do not engage in sexual intimacy with students or supervisees during the evaluative or training relationship between the therapist and student or supervisee. Should a supervisor engage in sexual activity with a former supervisee, the burden of proof shifts to the supervisor to demonstrate that there has been no exploitation or injury to the supervisee.

E. Licensees do not permit students or supervisees to perform or to hold themselves out as competent to perform professional services beyond their training, level of experience, and competence.

F. Licensees take reasonable measures to ensure that services provided by supervisees are professional.

G. Licensees avoid accepting as supervisees or students those individuals with whom a prior or existing relationship could compromise the licensee's objectivity. When such situations cannot be avoided, therapists take appropriate precautions to maintain objectivity. Examples of such relationships include, but are not limited to, those individuals with whom the licensee has a current or prior sexual, close personal, immediate familial, or therapeutic relationship.

H. Licensees do not disclose supervisee confidences except by written authorization or waiver, or when mandated

or permitted by law. In educational or training settings where there are multiple supervisors, disclosures are permitted only to other professional colleagues, administrators, or employers who share responsibility for training of the supervisee. Verbal authorization will not be sufficient except in emergency situations, unless prohibited by law.

§4713. Responsibility to Research Participants

A. Investigators respect the dignity and protect the welfare of research participants, and are aware of applicable laws and regulations and professional standards governing the conduct of research.

B. Investigators are responsible for making careful examinations of ethical acceptability in planning studies. To the extent that services to research participants may be compromised by participation in research, investigators seek the ethical advice of qualified professionals not directly involved in the investigation and observe safeguards to protect the rights of research participants.

C. Investigators requesting participant involvement in research inform participants of the aspects of the research that might reasonably be expected to influence willingness to participate. Investigators are especially sensitive to the possibility of diminished consent when participants are also receiving clinical services, or have impairments which limit understanding and/or communication, or when participants are children.

D. Investigators respect each participant's freedom to decline participation in or to withdraw from a research study at any time. This obligation requires special thought and consideration when investigators or other members of the research team are in positions of authority or influence over participants. Licensees, therefore, make every effort to avoid multiple relationships with research participants that could impair professional judgment or increase the risk of exploitation.

E. Information obtained about a research participant during the course of an investigation is confidential unless there is a waiver previously obtained in writing. When the possibility exists that others, including family members, may obtain access to such information, this possibility, together with the plan for protecting confidentiality, is explained as part of the procedure for obtaining informed consent.

§4715. Responsibility to the Profession

A. Licensees respect the rights and responsibilities of professional colleagues and participate in activities that advance the goals of the profession.

B. Licensees remain accountable to the standards of the profession when acting as members or employees of organizations. If the mandates of an organization with which a licensee is affiliated, through employment, contract or otherwise, conflict with the Code of Ethics, licensees make known to the organization their commitment to the Code of Ethics and attempt to resolve the conflict in a way that allows the fullest adherence to the Code of Ethics.

C. Licensees assign publication credit to those who have contributed to a publication in proportion to their contributions and in accordance with customary professional publication practices.

D. Licensees do not accept or require authorship credit for a publication based on research from a student's program, unless the therapist made a substantial contribution beyond being a faculty advisor or research committee member. Coauthorship on a student thesis, dissertation, or project should be determined in accordance with principles of fairness and justice.

E. Licensees who are the authors of books or other materials that are published or distributed do not plagiarize or fail to cite persons to whom credit for original ideas or work is due.

F. Licensees who are the authors of books or other materials published or distributed by an organization take reasonable precautions to ensure that the organization promotes and advertises the materials accurately and factually.

G. Licensees participate in activities that contribute to a better community and society, including devoting a portion of their professional activity to services for which there is little or no financial return.

H. Licensees are concerned with developing laws and regulations pertaining to marriage and family therapy that serve the public interest, and with altering such laws and regulations that are not in the public interest.

I. Licensees encourage public participation in the design and delivery of professional services and in the regulation of practitioners.
